Top 10 Customer Bringing Profit:

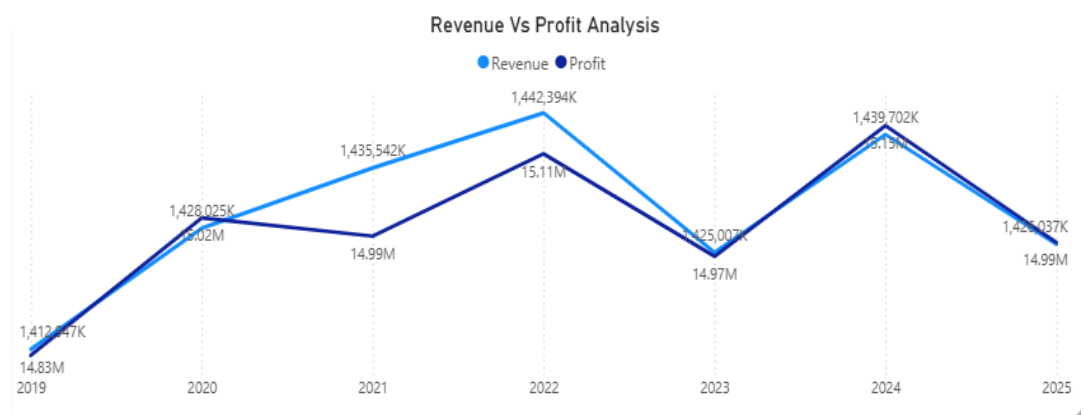

High Profit Giving Customers

Customer_ID	Profit
CUST000053	27,804.92
CUST000194	29,186.45
CUST001172	31,225.96
CUST001329	27,673.20
CUST001408	30,030.52
CUST004305	29,731.02
CUST006336	28,248.00
CUST007291	35,539.33
CUST008986	27,669.14
CUST009246	27,051.64
Total	294,160.18

Observation:

The customer having customer ID: CUST007291 brought more profit compared to all others.

Revenue VS Profit Analysis:

Observation:

Revenue growth have been high in 2021 and 2022. The profit has grown steadily along with the revenue.

8. RECOMMENDATION:

1. Give more discount and funding to premium channels.
2. Focus more on salary and current to lure them more in the revenue growth and profits.
3. Give more credit cards and more valuable fundings to the people.

9. CONCLUSION:

The analysis demonstrates steady business performance between 2019 and 2025, with strong contributions from premium account type and online channels. While revenue remained healthy, optimizing profit policies and inventory management presents an opportunity to further improve profitability and operational efficiency.
